

EURO 600 BB

The Euro 600 BB rotary jaws machine is Sigitaspak's most versatile solution covering a wide range of market requests having a great number of options available. Fully servo-assisted and capable of achieving high speed, the machine can be manually loaded or integrated in small automatic process with the appropriate loading systems. The EURO 600 BB is specially indicated to pack those products whose transportation is very difficult such as sticky products, fresh vegetables, etc.

SCAN ME

Performances up to 120 bpm
Stainless steel structure
Reel's width up to 600 mm / 23,62"
Brushless motorization

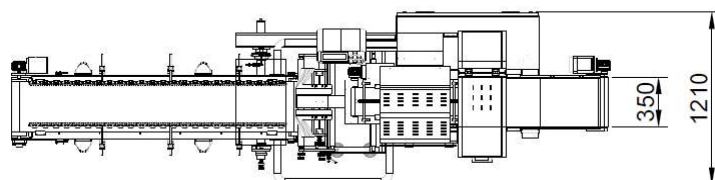

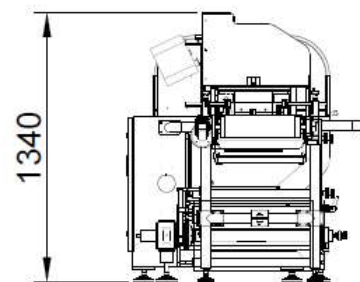

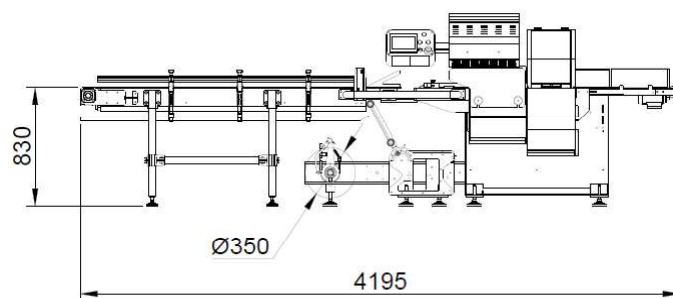

Technical Data

Max mechanical speed	Up to 120 bpm (Up to 200 bpm upon request)
Reel's max external Ø	350 mm / 13,78"
Reel's max width	600 mm / 23,62" (720 mm / 28,34" upon request)
Product's max length	1000 mm / 39,37" (limitless with cutter function)
Packaging materials	Polypropylene, coupled, metallized, pearled and cold seal films
Recipes	40
Interface	7,7" color touch screen
Electrical supply	380V, 3P + N + G (other upon request)
Installed power	8 kW
Structure's material	Stainless steel AISI 304
Weight	~ 500 kg

Options

- Double sealing jaw
- Zig-zag or easy opening blades
- Euroslot
- No Product - No Bag
- Pre-heating for the first pair of wheels (recommended for speeds higher than 10 m/min.)
